Summary

UX Designer with a Computer Science background, specializing in research-driven, human-centered experiences. Applying Service Design principles to bridge gaps in UX Design, driven by the goal to continuously evolve and deliver world-class UX solutions. Skilled in heuristic evaluation, journey mapping, and designing intuitive products that reduce friction and improve overall engagement.

Education

Guru Nanak Dev University, Regional Campus

Bachelor of Technology in Computer Science & Engineering — CGPA: 8.94

Gurdaspur, India

Aug 2022 – Jun 2026

Experience

Freelance

Aug 2025 – Present

Video Editor

Gurdaspur, India

- Delivered **40+ projects** for international clients, achieving **100% satisfaction** through precise, cinematic storytelling and execution.
- Streamlined stakeholder communication and requirements gathering, successfully reducing overall revision cycles by **40%**.
- Engineered visual narratives using advanced editing techniques, increasing client social media engagement metrics by **25%**.

Projects

Epic Gains — Gamified Fitness App UX [\[Figma\]](#)

May 2026

- Designed end-to-end UX for a gamified fitness app, successfully reducing gym anxiety for beginners through strategic behavioral design.
- Spearheaded UX strategy and onboarding design, directly contributing to a **2nd-place finish** at Protothon 2026.
- Iterated on low-to-high fidelity wireframes based on feedback from **10+ users**, boosting task completion rates by **30%**.

Crunchyroll App Redesign — UX Case Study [\[Behance\]](#)

Apr 2026 – May 2026

- Analyzed **496 Play Store reviews** to identify key friction points in playback (**49%**) and queue management (**31%**).
- Redesigned resume flows utilizing Hick's Law, cutting down overall task completion time by **67%** (*9s* → *3s*).
- Conducted comprehensive usability testing with **5 participants**, achieving **100% task success** through improved information architecture.
- Mapped **3 core user journeys** to pinpoint navigation bottlenecks, enhancing overall content discovery efficiency by **20%**.

University Portal UX Audit — Heuristic Evaluation [\[Notion\]](#)

Jul 2025

- Audited the university portal using heuristic evaluation, successfully identifying **12+ usability issues** across the main interface.
- Proposed targeted navigation and information architecture improvements to enhance usability and streamline the user journey.
- Documented **15+ actionable design recommendations** prioritized by severity, providing a clear roadmap that decreased projected development rework by **25%**.

Certifications

Google UX Design Professional Certificate

Jan 2025 – Present

Coursera

Online

- Mastered user research, wireframing, prototyping, journey mapping, and usability testing methodologies.

Responsive Web Design

May 2024 – Jun 2024

FreeCodeCamp

Online

- Acquired proficiency in HTML, CSS, accessibility, and modern responsive design principles.

Technical Skills

Design: Wireframing, Prototyping, Design Systems, Service Design, Information Architecture

Research: User Interviews, Usability Testing, Heuristics Evaluation, Journey Mapping, Behavioral Analysis

Tools: Figma, FigJam, Notion, HTML, CSS, Adobe Lightroom

Soft Skills: Systems Thinking, Storytelling, Stakeholder Communication, Iterative Design

Achievements

- Won **2nd Place** at Protothon 2026 (Dubstech x Design Buddies) for designing a gamified fitness product.
- Founded the first book club at Guru Nanak Dev University, hosting weekly book discussion sessions to foster a community of readers.
